THE NEW JOURNEY Your adventure begins before you arrive!

We are excited to announce a new vision for English Language Teaching at IH Sydney Training Services. We look forward to welcoming students back with an enhanced and innovative course structure that promises to boost and enliven their learning with the best this world has to offer.

Your journey starts before your arrival! We are now able to extend our hands across the oceans to welcome you, as soon as you enroll and do your English placement test:

Pre-arrival short courses (Arrival English & IELTS Ready)

Gain access to our online learning platform before you arrive in Australia. Prepare for your first week in Australia with Arrival English, or become familiar with IELTS strategies with IELTS Ready.

FROM BEST TO EXTRAORDINARY New features of our ELICOS courses!

We are going VR!

Use VR technology for in-class activities, interacting with your classmates and other real-life online speakers in 3D virtual environments; learn with educationally valuable apps as you explore virtual cities, interact in role-plays, or develop your vocabulary, and more!

Your classroom is now Australia-wide!

Connect with students in other campuses around Australia during our social activities and classes. Make friends in different cities and learn about the different lifestyles through games, social clubs, and cross-campus lessons.

Your English, your journey!

While you study English and prepare yourself for the future, build a digital portfolio of your learning and record your progress. Practice English outside of the classroom, show your work to your teacher, and get feedback on your tasks. Use your portfolio activities to demonstrate your abilities, and get promoted to higher levels faster.
